Three Logos in One

A logo is an image that captures an idea or an experience. Design three logos, one for each part of the trinity. Then design a logo that combines parts of all three, turning your three logos into one.

Hint: a logo can be as simple or as complex as you want. Need some inspiration? Think about your favorite brands and products. Also, don't start with your final draft. Grab some blank paper and think out loud while you sketch your ideas!

3 logo design tips:

1. Logos should be simple
2. Logos should tell a story
3. Logos should be memorable
